Subject: Dialectical Ideography, New Edition - Prolegomena, Epitome [Second Part of Volume I.]

Dear www.dialectics.org Webmaster,

Greetings to you from Foundation Encyclopedia Dialectica!

New Edition Foreword. The present “global economic crisis” – in truth, the emerging *Global Crisis of Humanity*, in which the ‘*Meta-Darwinian Planetary Selection Test*’, and the ‘*Seldonian Alternatives*’ of *Global Renaissance* versus *New/Final Dark Age*, are being directly posed – will continue to claim priority one on all **F.E.D.** resources until its resolution.

That overriding priority notwithstanding, the General Council of **F.E.D.** is committed to continuing our communications with your website.

Moreover, the Council has recently taken the decision to finalize a new edition of its primary public communication – namely, of the treatise entitled *Dialectical Ideography: A Contribution to the Immanent Critique of Arithmetic* – and to proceed with its publication.

The Council has charged me with the responsibility of overseeing the editing – from start to finish – of this new edition of *Dialectical Ideography* for greater accessibility to a broader public than has been achieved by the previous editions. Readers’ feedback, and readers’ suggestions, as to how this task might be better accomplished, are most sincerely, and most earnestly, solicited.

Background. The initial edition of *Dialectical Ideography* was first distributed, in «*samizdat*» fashion, beginning on Thanksgiving Day, 25 November 1999, to selected individuals who, in the majority opinion of the General Council, evinced partial resonances with major themes of the **F.E.D.** research findings in their own published writings.

The text of *Dialectical Ideography* has evolved, and “*meta-evolved*”, ever since, apace with the progress and deepening of our collective research, and with our maturation as an organization: *as an organized force for human liberation*.

Applying the **F.E.D.** “*Psycho-Historical Equations*” to the current situation of Terran humanity, the most seasoned “*Psycho-Historians*” of the General Council have calculated that the optimal moment for the publication, and for the wider dissemination, of *Dialectical Ideography*, is drawing near.

Enclosure. Enclosed herewith: the second part of Volume I. of the new edition of *Dialectical Ideography*, Section I. A., entitled ‘*Epitome*’.

We plan to continue transmitting the other parts of the new edition of *Dialectical Ideography*, Volume I., to your website, together with the further cover letters of this new series that are scheduled to follow this one. We plan to do so in tandem with continuing transmittals of the letters of the other series, that we already commenced during the second half of this year: letters illustrating applications of the axiomatic system of the Q “*Natural-Dialectical Arithmetic*” -- the «*arché*» of all of the Dialectical Ideographies -- via “sample dialectical models”, models drawn from the *Encyclopedia* itself, and from new applications, recently documented elsewhere on the World Wide Web, by some of your site’s students.

Dialogically yours,

Aoristos Dyosphainthos

Member, General Council
